

# Technology at home

I would like to know more about the type of technology that your child can access at home.

How skilled are they?

Are they able to take photos on IPADS or search for things on Google (if allowed!)

Can they find a favourite programme on the TV/ computer, use a CD player or an Ipod?

Technology is moving very fast. Are they able to log on to certain games?

Do they know how to contact a grandparent on the phone?

Perhaps they are not allowed to do any of these things.

Your answers will help me make my technology judgements for their end of EYFS Profile! Thank you. Mrs Hornig
